## DANCE PROGRAM

The Sacred Heart University Dance Program is a profound source of energy and artistry on the SHU campus. The program offers a variety of dance experiences to suit any level of interest, commitment, and passion for dance. Students are encouraged to engage in exploration, creation and the critical thinking process all while preparing for longevity and viability within the dance world. For each student this means a deeper understanding of their moving bodies and an awakening to a kaleidoscope of possibilities.

Our dance faculty and staff are committed to the development of well-rounded, aesthetically aware students using various forms and approaches to elevate learning. They encourage students to explore and create within a community of artists that are engaged both artistically and academically.

## INVOLVEMENT OPPORTUNITIES
